

GUIDEBOOK

IOT  
SOLUTIONS

Dear Smart City Expo Visitor,

We are pleased to present our first Internet of Things Solutions (IOTS) Guide Book. IOTS is a sector with an emerging technology that will boost the Industrial Internet revolutionizing vertical markets and fostering the largest growth in the history of industry and business.

During the past year we have witnessed with great enthusiasm recent developments in Internet protocols and cost reduction for network connectivity. Industrial and consumer markets already benefit from cutting-edge innovation in Smart Homes, Connected Cars, Wearables and e-Health. Also, mainstream adoption of network-connected devices is on the rise and will be inevitable over the next years!

Educating consumers is key to grow this market. For this reason, we leverage on the advancements in Smart Cities to collect existing IOT Solutions. In this Guide Book, we introduce you to 65 companies from around the world that commercialize groundbreaking IOT and M2M technologies that are shaping the future of new technological developments.

We welcome you to Smart City Expo 2014 and invite you to make a tour visiting the IOTS companies featured in the Guide Book.

+31 (0) 229 275 850 · [info@ibabs.eu](mailto:info@ibabs.eu)

Platform independent.

The background of this section shows a blurred image of people's hands using mobile devices like smartphones and tablets in a meeting setting.

iBabs is available for all mobile platforms

# Accenture

## Deepening connections between businesses and machines.

Define what it will take to benefit from IoT.

Connect with a Roadmap to Productivity and efficiency.

IoT for new Digital business models.
